

COMPANY OVERVIEW

PJ TRAILERS

Quick Facts

- #1 Professional Grade Open Trailer Manufacturer
- Broad Line of Dumps, Flatdecks, Utilities, Tilts & Equipment Trailers
- Over 300 Independent PJ Trailers Dealer Locations in the US & Canada

Our Company

PJ Trailers was founded in 1991 in Sumner, Texas. Over 20 years and hundreds of thousands of trailers later, we continue to build each trailer with the attention to detail that has made PJ Trailers the workhorse that hard-working professionals count on to do their jobs.

Standard Features Make the Difference

All PJ Trailers products include standard features built into the trailers to ensure they stand up to the toughest conditions.

- **Powdercoated**, for a durable extra glossy finish.
- **Sealed Wiring Harness** Enclosed in Tube and/or Conduit for ultimate wiring protection.
- **I-beam Goosenecks**, for the strongest gooseneck construction available.
- **Channel Crossmembers**, for added frame rigidity and deck strength on our Carhaulers, Flatdecks, Dumps, and Tilts.
- **Radial Tires**, for reliability, safety, and increased tread wear.
- **Pressure Treated Lumber**, for a long lasting deck.

Other manufacturers consider these options – at PJ Trailers, we consider them essential requirements of a safe, durable and dependable trailer.

A Dealer Network Built to Serve You Anywhere

PJ Trailers are sold **exclusively** by independent, local dealers located widely throughout the United States and Canada. Our dealers are the backbone of our business, and unlike many other manufacturers we do not sell out of the factory or through company stores. During the 20 years we have been in business, we have learned that dealers know their local market best. In addition, your trailer is an investment, and our dealers ensure you have a convenient place to keep your trailer in top operating form during the many years you will use it.

A Warranty You Can Believe In

PJ Trailers offers a warranty you can count on and an approach to customer service aimed at meeting all your needs. We offer a minimum One-Year Unlimited Mileage Warranty and an **industry-leading Three Year Warranty** on all trailer frames, as well as a hassle free approach to resolving any issue that arises.

Highest Quality Components

PJ Trailers uses only the highest quality components in its trailers. We work together with our suppliers of critical parts such as axles, jacks, lights, and tires to deliver the most reliable product to you and keep your trailer working 365 days a year. Our suppliers are chosen carefully based on the reliability of their products and their same commitment to our **Hassle-Free Warranty** approach.

Our Gratitude

At PJ Trailers, we view our customers as lifelong partners in building the industry's most dependable trailers. And we work every day to have the same long-term relationship with the people who use our products to meet their hauling needs. We appreciate your interest in PJ Trailers, and we thank you for taking the time to learn about us.
